## ACEGID, ILLUMINA TO BOOST AFRICA'S GENOMIC CAPACITY, ESTABLISH JOINT ACADEMY

The African Centre of Excellence for Genomics of Infectious Diseases (ACEGID), Redeemer's University, Ede, Osun State, Nigeria, has announced that it will collaborate with Illumina, a global leader in sequencing and array-based technologies, on a joint workforce development training academy, with the aim of boosting Africa's genomics capacity.

ACEGID and Illumina, in February, signed a memorandum of understanding and will work towards an

agreement to leverage the existing pathogen Genomics and Bioinformatics Bootcamp program at ACEGID, to set up an ambitious training program targeting 1,000 young African researchers and scientists in Genomics and Bioinformatics between March 2023 and December 2025. This will significantly increase the supply of qualified technical workforce for next-generation sequencing wet lab management, bioinformatics, big data analytics, advanced artificial intelligence; and machine

learning applications.

Aside from the proposed academy, Illumina and ACEGID will also explore the implementation of a "mobile lab-in-container" that will enable real-time and on-the-move sequencing for outbreak responses in West Africa. This new program fits into ACEGID's SENTINEL pandemic preparedness and response program of identifying pathogens with pandemic potentials in the field before they can wreak havoc.

Speaking on the strategic

## ACEGID, ILLUMINA TO BOOST AFRICA'S GENOMIC CAPACITY, ESTABLISH JOINT ACADEMY

Continued from Pg. 1

alliance, Professor Christian Happi, ACEGID's boss, explained that cooperation with Illumina is in complete alignment with the mandate of ACEGID, which is to train a critical mass of young African scientists that will use genomics tools and technologies to address public health challenges in Africa.

He further noted that what is unique about this cooperation is that both Illumina and ACEGID are agreeing to put in place the necessary infrastructure for training in genomics, research, and innovation that is going beyond infectious diseases also to address the issues of non-communicable diseases. The partnership is expected to be a landmark in the African genomics and public health space which is tailored towards addressing the needs for both human resources development and infrastructure for proper training to enable increased capacity for genomics on the continent.

"We share a collective goal with ACEGID of extending

PROF. CHRISTIAN HAPPI  
Director, African Centre of Excellence for  
Genomics of Infectious Diseases

the reach of genomic technologies and their impacts for patients," said Susan Tousei, Chief Commercial Officer of Illumina. "Africa has the greatest genetic diversity of any continent, and this opportunity to contribute to the future of accessing that diversity for the benefit of human health is one Illumina is proud to support".

Illumina chief added that the two organizations will also work towards collaborations for pharmacogenomics which is the study of how genes affect a

person's response to drugs and precision oncology which has to do with the treatment of cancers based on the specific genes that cause cancerous growth in a patient for Africans.

Explaining the mission of his company, Illumina Chief Executive Officer, Francis DeSouza, stated that making precision medicine a reality for all populations is core to Illumina's mission to improve human health by unlocking the power of the genome, noting that today, only two percent of genomic data comes from African individuals, and we are committed to changing that. It begins with empowering local scientists and researchers with tools, resources, and training on the power of genomics.

"Our work with Prof. Happi and ACEGID builds on our goal to rapidly expand sequencing capabilities and capacity for all people in Africa, and will impact every area of precision medicine, from drug development to cancer screening, therapy selection, and monitoring," he highlighted.

## GOVERNING COUNCIL RELOCATES THE DIRECTORATE OF PROCUREMENT TO VICE-CHANCELLOR'S OFFICE

As part of her efforts to deliver world-class procurement services for transparency, efficiency, and cost-effectiveness, the Redeemer's University Governing Council, during her 68<sup>th</sup> statutory meeting held recently, has approved the request of the Management to move the Directorate of Procurement to the Office of the Vice-Chancellor.

In a statement signed by the institution's Registrar and Secretary to the Governing Council, Mr. Olukayode Akindede, the relocation of the Directorate of Procurement from

the Bursary Department to the Vice-Chancellor's Office was to align and situate it in line with the Scheme of Service of the university. The relocation took effect on March 2, 2023.

Sequel to this development, the Directorate of Procurement has now been separated from the Stores Unit which is one of the strategic business arms of the Bursary Department.

# NUC EXPRESSES SATISFACTION OVER REDEEMER'S UNIVERSITY GROWTH AND DEVELOPMENT

Every organization belongs to a body that governs them and Redeemers University is not an exemption as the National Universities Commission visited her on the 22nd March, 2023 from Abuja with two representatives from the Director General, Mrs. Tola Oludare and Mr. Henry. At their arrival, they met with the Vice-Chancellor; Prof. Anthony Akinlo in his chambers alongside the Bursar; Mrs. Olutayo-David, Deputy Registrar; Mrs. M. Oje; Chief Librarian, Dr. A. Adeleke, and Director of DRIPS, Dr. Wale Adewuyi.

The Leader of the Team; Mrs Tola Oludare commenced the meeting by addressing the Leadership of the University on the purpose of their visit and what it was set to achieve and the standard they are expecting to get in the school. While her partner Mr. Henry gave an overview on the essence of the tour and what it was set to accomplish.

The Vice-Chancellor in his speech appreciated the 'NUC' for their warm gesture in reaching out to the school and its authorities. He went further to give a historical insight of the institution and how it began from Mowe in Ogun State to their permanent site in Osun State. The university is not restricted as they are set on improving on themselves despite their short time of existence. In his words, he said we are just nine years here in Osun State, but what we have been able to achieve is so great compare to other universities.

Dr. Wale Adewuji who is the Director of Research had the honor of taking the representatives of the National Universities Commission on a tour through the university. From the lecture halls, to the post graduates hostels and colleges where they met with the Provost of the College of Postgraduate Studies in person of Prof. O. G. Adeyemi. He received the guests with much delight and eustasy, while he went further to explain the history of the existence of the PG programme even to when it was accredited in the university. He also took them round the buildings, showing them the various lecture classrooms, and the several awards that are in the post graduate

The National Universities Commission delegates, Director General, Mrs. Tola Oludare (middle); Deputy Director, ACEGID, Prof. Folarin Onikepe; Mr. Henry (5th Left); Director of Research, Innovation and Partnership (DRIPS), Prof. Adewale Adewuyi; Project Manager, Prof. Philomena Eronmo.

department.

Still on the tour, they visited the Africa Center of Excellence for Genomics and Infectious Diseases (ACEGID). The Deputy Director; Prof. Onikepe Folarin received the representatives with a big smile, while she briefly gave an overview of what ACEGID is all about and what it entails, reason for its existence and the role it has played in the world at large. Giving a historical perspective, The Africa Centre of Excellence for Genomics of Infectious Diseases (ACEGID) was founded in 2013. In 2014, they had their first index case of Ebola outbreak, the role of ACEGID in curbing the spread, and managing the situation from Sierra Leone to Nigeria. She also mentioned the ways and methods they use to ensure that infectious diseases are contained to a large extent so it does not affect the institution and the state. Still talking with the NUC representatives, she introduced the Project Manger; Prof. Philomena Eronmo, who shed light on the various buildings, and equipment. She explained the function of the research lab, where researches are carried out, DNA rooms for collection of samples, e.t.c. To further buttress the importance of the ACEGID, Prof. Onikepe Folarin analysed the impact of the Covid-19 Pandemic on their operations, and the use of different machines in the laboratory to ensure the safety of the Redeemers University staffs and wards. Worthy of note is the fact that they are in a well recognized partnership with the World

Health Organization (W.H.O), NCCDC and NAFDAC. Prof. (Mrs.) Onikepe also mentioned that the Redeemers University is still open for growth, and to this effect they are working effortlessly to make sure that they move to their permanent site of the building still in within the premises in no distant time.

On sight seeing, the permanent site the technological advancement, implantation of the solar system, inverters and the wide and commodious space was also not left out.

The guests also took out time to visit the Centre for Chemical and Bio-Chemical Research, where Dr. Alfred who is a member of the board took them round the centre. In the Engineering Departments, they were introduced to the different machines and their functions, the various laboratory studios, fluid mechanics, hydrology, and others.

Dr. Ropo Dairo, who is the head of department of Electrical Engineering Department also briefed them on the maintenance workshop. Furthermore, the guests visited the school hostels for both the male and female gender, inspected how clean their environment was, the school cafeteria, to see how structured they are. They also went round the university premises for sight seeing. And after their tour, they returned to the Vice-Chancellor's office for the signing of some documents while commending the efforts of the management in maintaining such a great standard.

The Vice-Chancellor, Redeemer's University, Prof. Anthony Akinlo (fourth left) flanked by his team and the Chairman, Institute of Estate Survivor Valuers, Mr. Kunle Adewuyo (fourth right) and his team during the Institute of Estate Survivor Valuer courtesy visit to the University at the Council Chamber recently.

## NIGERIAN INSTITUTE OF ESTATE SURVEYORS AND VALUERS DONATES BOOKS TO RUN

The Governing Council of the Nigerian Institute of Estate Surveyors and Valuers (NIESV) Osun State Chapter, paid a courtesy call to the Vice-Chancellor Redeemer's University, Ede Professor Anthony Akinlo in his office recently.

Speaking during his visit the Chairman of the Institute, Mr Kunle Adedoye stated that the donation of the 30 professional books to the university and Faculty of Built Environment is meant to enhance learning and teaching of the Estate Management and to position the students to be competitive among their peers through updated professional knowledge which is fundamental to the practice of the profession of Estate Management in the country. He highlighted that any institution that runs the

program without accreditation by his Institute will look like a university that is offering a degree that is equivalent to a Higher National Diploma.

He canvassed for a relationship between his institute and the university in other to boost professional practice of its graduates, he encouraged the University to allow both lecturers and students of the Department of Estate Management to attend its monthly meetings in order to get acquainted with the trends and latest developments in the field of Estate Management.

He furthered solicited for intervention of the management of Redeemers University to provide a separate building for the Faculty of Built Environment Studies in order for them to have a sense of belonging associated with those that

have been trained by his Institute. While responding to the request of the Chairman of the institute the Vice-Chancellor; Professor Anthony Akinlo commended the various efforts of the proprietors of the university to provide world class facilities and enabling environment for the university to excel in the business of educating Nigerian youths.

While appreciating the institute for the donation of various books for the teaching of Estate Management he noted that he who brings books, brings life. He said his administration will support staff and students of Estate Management to attend the monthly meetings of the institute and also endorsed strategic partnership between the university and the institute for professional certifications of the programme.

The University Management team and other dignitaries at the commissioning of the Redeemer's University Staff Secondary School permanent building recently.

## COMMISSIONING OF REDEEMERS UNIVERSITY STAFF SCHOOL NEW BLOCK

**R**edeemer's University staff secondary School (RUNSS) has commissioned a new block building recently. The commissioning which was graced by several dignitaries in the institution also had the privilege of having the Vice-Chancellor, Professor Anthony Akinlo, who dedicated and commissioned the new building by blessing and dedicating it to God. In his speech, he commended the staff of the school on how well they have actively contributed to the growth and expansion of the staff school into what it is at the moment. Other dignitaries that were present at the commissioning included; the Deputy Vice-Chancellor, Professor Ahmed Yerima; Bursar, Mrs. Mofoluso Olutayo-David; Registrar, Mr. Olukayode Akindede and the Librarian, Dr. Akinniyi Adeleke.

Pastor Olugbenga Akosile

immediate chairperson of the board, welcomed everyone to the event and gave the history of the school, the foundation of the buildings, how they started occupying the buildings, and relocation from Redemption to the permanent site in Osun State. He spoke about when they started and how they had no school buses for transportation of their students, no boarding house, and how they started with the children day's programme as a means of creating awareness in order to get the attention of the public and to stimulate the interest of parents to enrol their children in the school

so that more students can join them. But presently, they are not where they used to be and their current state doesn't look like their humble beginning.

In addition, he also stated that the cost of the new block building added to the school cost nothing less than, #23,800,000 (Twenty-three million, eighty thousand naira), and they still have a left over of nine inches block ranging to about 3,900 pieces. He, therefore, appreciated the university and the management for their constant support towards them and their wise counsel and wisdom.

The staff and students of the secondary school in reciprocation, decorated the Vice-Chancellor; Professor Anthony Akinlo and Mrs O. Afolabi, gave the vote of thanks, appreciating everyone for their care and support in ensuring the new block building was commissioned.

# REDEEMER'S UNIVERSITY DOES NOT EMBELISH RESOURCES FOR ACCREDITATION

The Vice-Chancellor of Redeemer's University, Ede, Osun State, Professor Anthony Akinlo, has said that the institution does not borrow equipment or embellish resources to get approval for National Universities Commission (NUC) accreditation.

He made this statement while receiving the teams from the apex regulatory body for Nigerian universities in his office, recently. He added that everything that was being presented for the resource verification is owned by the institution.

Responding to Professor Akinlo's opening, Professor Joseph Kerker, a team leader of NUC's Resource Verification for Master of Arts and Doctor of Philosophy in Christian Religious Studies, noted that for any university to be given

The Management team and National Universities Commission Resource Verification team with some of their academic staff of the Redeemer's University during the NUC Resource Verification Visit to the proposed new academic programmes, MA/Ph.D Christian Religious Studies and Bsc. Petroleum Chemistry at the office of the Vice-Chancellor, recently.

the nod to run specific courses, they must meet minimum BMAS requirement, adding that this will also enable them to speed the process of accreditation up.

In the same vein, Professor Abdulkadir Mukifar, who was the team leader for Resource verification for

Petro-chemistry appreciated the university for the conducive environments they created for learning and the facilities, and equipment the university has been able to acquire. while speaking, he addressed the areas in which the university should improve and commended them for their efforts so far.

## HEALTH CORNER

### REPLACE YOUR SUGAR WITH HONEY

1. It is effective as a remedy for digestion and other gastric issues.
2. Gives soothing and relaxing effect for eyes.
3. The antioxidants in Honey are good for memory boosting.
4. Cough and cold can be reduced with regular intake of this natural food.
5. Honey activates nerves as it contains sugars glucose that are absorbed quickly in the blood.
6. Regular drinking of milk with a combination of honey, controls aging.
7. Honey with Tulasi leaves, reduces cough, cold and fever for children.
8. It controls uncontrolled urination.
9. Drops of Honey with milk, increases resistance to infectious diseases among children.
10. Lime in combination with Honey reduces pain with inflammation.
11. Honey has tumour and cancer healing components such as flavonoids.
12. Honey helps in getting a good sleep.

# UWC APPOINTS RCBC PROVOST AS EXTRAORDINARY PROFESSOR

The Provost of the Redeemed Christian Bible College (RCBC), Professor Babatunde Adedibu has been appointed as an Extraordinary Professor by the University of the Western Cape, South Africa.

In a letter dated 7<sup>th</sup> March 2023 and jointly signed by the University's Deputy Vice-Chancellor Academic, Professor Vivienne Lawack, and Dean Faculty of Arts and Humanities, Professor Monwabi Knowledge Ralarala, the University authority informed Professor Adedibu that his new appointment was approved by the Joint Appointments and Promotions Committee of Senate and Council of the University on Tuesday 7<sup>th</sup> March 2023.

Professor Adedibu, a Professor of Church History and Missiology, is expected to bring his wealth of experience

**Prof. Babatunde Adedibu**  
Provost, Redeemed Christian Bible College (RCBC)

and expertise to bear on the academic life of the University through research, teaching, postgraduate supervision, and consultancy services to the academic programmes of the University.

By this appointment, he has added to his many firsts having been the first full-time head boy of RCBC to become the Provost of the College as well as being the first RCBC Provost to be appointed a University Professor following his appointment as Professor of Church

History and Missiology by Redeemer's University, Ede, Nigeria on October 1, 2020.

He is a Principal Investigator and Grantee of Nagel Institute of Calvin University Project in Engaging African Realities in conjunction with the John Templeton Foundation Research Grant awarded for the research project entitled "The Politics and Poetics of Violent Prayers in Nigerian Pentecostal Churches". The research team is made up of five interdisciplinary scholars. The project investigates what prayer litigants are doing when they pray "violent" prayers, and what possibilities their religious understanding and experience hold for building a theology of social change and transformation.

His appointment will run for three years and could be reapproved for another three years at its expiration.

Vice-Chancellor, Redeemer's University, Prof. Anthony Akinlo (middle) flanked by other dignitaries at the launch of the Centre for Gender, Humanitarian and Development Studies International Consortium at the Senate Chamber recently.

## CGHDS LAUNCHES INTERNATIONAL CONSORTIUM TO BOOST DEVELOPMENT STUDIES

The Vice Chancellor, Redeemer's University Ede, Osun State, Professor Anthony Akinlo, has reiterated the commitment of its institution to gender equity, social justice and diversity management in all aspects of its operations.

Speaking at the inauguration of the international consortium of the institution's Centre for Gender, Humanitarian and Development Studies, he stated that its Gender Centre is constituting and bringing together the best minds and resources to tackle some of the pressing issues in gender and development studies, adding that the institution's goal is to foster a deeper understanding of development issues and to develop practical solutions that will change

and transform nations.

Explaining the goals of establishing the international consortium, the acting director of the centre, Dr. Oluwatoyin Ilesanmi, stated that consortium is unique in that its major programmes are geared towards the academic communities, the diplomatic communities and other relevant stakeholders.

Giving a lead paper on gender equality at the event, Professor Olabisi Aina, who is the pioneer director of the centre spoke on the need for equality between both genders, noting that this would go a long way in projecting the women and giving them the desired opportunity and equality they deserve.

Also speaking at the

programme, Dr. Chiza ogbulekwe, a researcher at the Centre implored the women, on the women supporting women sensitisation, in her words she highlighted that women have enough strife in the male world and there is need for women to start supporting themselves as this will build up numerical strength as they aspire for positions in the political sector.

The former Honourable Commissioner, Osun State Ministry of Women, Children and Social Affairs, Barrister Olubukola Olaboopo advised women to start supporting each other rather than envying and hating each other as this will ensure unity and create a stronger bond between themselves.
